Re: Substance Abuse Council Grant Applications

Grants applications are **due by Friday, May 17, 2024**. Grants must be received by Friday, May 17, 2024 by email or be postmarked no later than July 14, 2023 to be considered for grant funds. Grant areas include:

- Justice/Law Enforcement
 - Programs addressing methods to increase efforts in law enforcement and/or criminal justice aimed at reducing alcohol and other drug use. Can be used for training purposes or to improve community relations.
- Treatment and Intervention
 - Programs focusing on methods of intervention and/or treatment in groups of people using or abusing alcohol and/or other drugs or at a significant known risk of use.
- Prevention/Education/Community Awareness.
 - Programs aimed at preventing alcohol abuse and other drug use in groups who are not currently using alcohol and/or other drugs.

An agency requesting grant funding in more than one area must complete a separate grant application for each funding area. Applications with more than one grant area identified will not be considered.

Carefully review the grant application and please complete all sections. Grant requests must address at least one of the following problem statements and goals from the Bartholomew County Substance Abuse Council Comprehensive Community Plan:

- Problem Statement #1: Our youth and adult community members have a normalized attitude toward alcohol, tobacco, and other drugs.
 - Goal #1: Educate a minimum of 300 youth and adult community members on the potential harm in alcohol, tobacco, and other drugs (emphasis on marijuana use) by March of 2025.
 - Goal #2: Work within the Bartholomew County Prevention System to ensure messaging is consistent and available to a minimum of 3 different types/styles of media to best communicate/educate the larger community by March of 2025.
- Problem Statement #2: Education/Prevention/Screening services are limited in the community outside the Mental Health and Substance use continuum; lack of education results in a lack of knowledge regarding the impact of trauma on substance use.

- Goal #1: BCSAC will provide education regarding the impact of trauma on substance use to 250 community members by March of 2025.
- Goal #2: BCSAC will improve education regarding the need for trauma screening to 250 community members by March of 2025.
- Problem Statement #3: Availability of drugs, alcohols, and tobacco products to youth and adults in the community with little understanding of local trends.
 - Goal #1: By March of 2025, local Law Enforcement and partners will engage in a minimum of 3 community education presentations regarding alcohol, tobacco, and drugs. The BCSAC will provide funding for the creation, purchasing, or printing of educational materials to be used at said community events.
 - Goal #2: BCSAC will support local Law Enforcement and partners efforts by providing funds to purchase needed items used to deter, educate, and/or identify individuals (particularly youth) who are at high risk for substance use and/or misuse while working to maintain these students in a school setting by March of 2025.
